

### General Features

- Precise cutting of Aluminium profiles between 20°-135°.
- Has lubrication system.
- Left feeding table and automatic saw safety cover.
- Profile support arm between two heads.
- Special vacuum system to cut without depositing sawdust on heads.
- Profile height measuring system.
- Automatic slicing system.

### Optional Equipments

- BY 100 Barcode Printer
- E 100 Barcode Printer (ethernet)
- BB 200 R Feeding Table
- F 100 E Feeding Table (Additional)
- D 100 Double Press
- KP 100 Cutting Program

- On auto mode, it goes to position without operator intervention.
- Option to work with CF Card.
- 1850 different cutting length memory capacity.

- Precise cutting at inner 45°, outer 20° thanks to patented control system.

- Hydropneumatical system provides precise cutting quality.
- Horizontal profile clamping and practical piston place adjustment system.

- The machine has patented features.
